Summary

Economist and Ph.D. in economics with more than eight years of experience analyzing and impacting public policies in agriculture, technology adoption, and market access. I have demonstrated the ability to work with multidisciplinary and inter-institutional operational activities. From my work experience, I have acquired competencies such as organization skills, attention to detail, creativity, the ability to adapt to tight deadlines, and the ability to perform different functions.

Education

- | | |
|-----------|---|
| 2016–2023 | Universidad de los Andes – Bogotá, Colombia
Ph.D. in Economics |
| 2016–2023 | Universidad de los Andes – Bogotá, Colombia
M.Sc. in Economics |
| 2007–2013 | Universidad del Valle – Santiago de Cali, Colombia
B.Sc. in Economics |

Professional Experience

- | | |
|--------------|--|
| 2023–Present | Alliance of Bioversity International and CIAT (Postdoctoral Fellow) – Palmira, Colombia
Main Activities: <ul style="list-style-type: none">– Leading coordination of research activities in the "CSICAP" project on climate-smart agriculture in Colombia– Coherence analysis for National Policies and Strategies (WP2 Colombia)– Design and implementation of impact evaluations and research protocols |
|--------------|--|

Alexander Buriticá

2022–2023 **Alliance of Bioversity International and CIAT (Senior Research Associate)** – Palmira, Colombia

Main Activities:

- Coherence analysis for WP2 Colombia
- Support for design and implementation of impact evaluation protocols

2021–2022 **Verité (Development Economics Specialist)** – Amherst, USA

Main Activities:

- Studies on labor dynamics and Living Wage–Living Income in coffee sectors (Antioquia and Huila)
- Monitoring system design for COFFEE pilot project
- Evaluation of alternative payment mechanisms for harvesters
